Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

Oregonians are already taxed to death. The kicker will help struggling families survive. School districts get more than enough funding and the taxpayers should not be forced to pay more due to their own mismanagement of funds. Live within your budget! Throwing more money at schools will not fix the issue that Oregon has one of the lowest rates of student achievement in the nation. There needs to be accountability!
