Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Measure 114 is already a travesty and a crime against the the liberty of Oregonians. This new legislation would take that gross infringement of the 2nd amendment even further. Neither 114 or this new bill do anything to actually help protect Oregonians, in fact they will do the opposite. Young women at risk of violence are the most vulnerable, and every added unconstitutional step placed in-between a young woman and her ability to quickly purchase a firearm, is another opportunity for potential predators. 114 is morally bankrupt on its own, not to mention illegal...and these new changes are just plain absurd.
