Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

I oppose this bill. The kicker checks help thousands of families across oregon every other year. The state of Oregon already has ridiculously high tax rates and needs to balance the budget better and not take more from the people of oregon than they already have. The state needs to be working on lowering taxes not trying to weasel more money out of people. Thousands of people are leaving this state every year along with businesses due to the policies made in Salem. There are lots of programs in this state that could take a cut.

Do not approve this bill!
