

## HB4145 - OPPOSITION

To Whom It May Concern,

The continuing efforts of the current legislature to deprive the Citizen's of Oregon their 2<sup>nd</sup> Amendment Constitutional Rights is evidenced in the submission of HB4145. Measure 114 couldn't pass muster so the crafted, colorable, HB4145, is the legislator's ongoing attempt to circumvent Oregon's Constitution as well as the National Constitution.

I could go on with any number of evidences to show what a stupid lot the legislative majority have become but it would be but tinkling-brass to their dead ears. Like most self-righteous idealogues you will only believe what you want to believe. In all likelihood you will dismiss this opposition response as the rantings of a benighted individual.

Without Prejudice,

The Once Honorable,

Duane C. Cochran  
Corvallis, Oregon
