

Submitter:	Jamie Whitaker
On Behalf Of:	Friends of couch park
Committee:	Senate Committee On Early Childhood and Behavioral Health
Measure, Appointment or Topic:	SB1573

Hello, I support this bill to limit syringe distribution close to schools. My 7 year old child attends a school in a location that distributes syringes and they are found on the playground and park at the school on a daily basis. Couch park is the closest park and restroom for folks to use the syringes and it is a huge health and safety risk for the children.
