

Submitter: Kendall Kic

On Behalf Of:

Committee: House Committee On Transportation

Measure, Appointment or Topic: HB4007

As an avid cyclists and participant in cycling events and fundraisers in Oregon since 1998 HB 4007 will allow my continued success and survival. I lead a cycling group with 26 members and host weekly rides all around Portland. The increased use of bike paths by speeding electric one wheeled and two wheeled vehicles is very nerve wracking and scary. Please pass this much needed bill to keep me and my friends alive.
