RE: Testimony in Support of SB 1570-1

To the Senate Health Care Committee:

It is vital that our health care facilities be safe spaces. ICE seeks to illegally remove persons without due process. ICE processes have already resulted in the deaths of numerous persons and the conditions they imprison people in are proven to be inhumane. Allowing them to abduct people already seeking medical care ensures that they become executioners for many innocent people.

Please keep them out.

Thank you for the considering this testimony and I look forward to your support.
