House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

HB4145

This bill is unconstitutional at it's core. Shall not be infringed is clearly written and that's exactly what it meant. You have proposed hardships on obtaining firearms through needing a permit that is unattainable and for a fee. The government of Oregon is requiring a fee, class time and a special permit to obtain firearms in Oregon. That is a clear and direct infringement on our ability to obtain a firearm and practice our Constitutional rights. This bill should be thrown out and dissolved.
