Measure, Appointment or Topic:

HB4134

My name is Julie Foering and I live in Portland, Oregon.

I'm in full support of HB 4134, we need to be prioritizing funding wildlife protection. This not only is good for the wildlife, it protects our future and survival. We also need thriving wildlife populations for resources to feed our communities and our tourists. The economy relies on these fundamentals, it would create a depreciating domino effect of commerce if we don't assure a thriving ecosystem. It's also just the wise move to make.

Please support "1.25% for Wildlife" by passing HB 4134 today.

Thank you.
