Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I encourage you to vote yes on HB 4134. Protecting Oregon's vast wildlife is very important, especially with all of the added challenges of climate instability, lessened restrictions on a federal level, and poaching. Natural biodiversity is one of the things that makes Oregon such an amazing state, we should do all we can to protect it.

The short term lodging tax will affect out of state visitors more than the average Oregonian. Using money from tourism to improve our state seems like a no-brainer.
