

Submitter: David Morrow  
On Behalf Of: Showers Pass Clothing  
Committee: House Committee On Transportation  
Measure, Appointment or Topic: HB4007

Showers Pass make clothing for cycling and outdoor activities, and we are well know for our rain gear. Our headquarters are in Portland, OR, and we have been in business in 1997. Cycling is part of our DNA. Our partner business is VVolt electric bicycles, also headquartered in Portland.

We support HB4007. I brings needed clarity to bicycle specifications, and promotes safety. As a resident of Bend, I see youth riding ebikes all the time. Limits on speed and use of cycling helmets is a very practical legislative action. Bicycles are inherently clean transportation, but their use should not present harm to the cyclist. HB4007 promotes safety and clarifies use practices.

Please approve this bill in committee and move it forward to the full legislature for approval.

Respectfully, David Morrow, Founder Showers Pass Clothing and part owner of VVolt Bicycles.
