This measure will criminalize nearly every gun owner in oregon, and does nothing to address actual crime or criminals, rather it goes after legal gun owners. the purpose of this bill seems to be more about revenue generation and penalization of every day tasks. this bill will also inexplicably hurt small businesses by making it difficult, if not impossible to sell a firearm as permits are processing, and by rendering thousands of dollars in stock unsellable. there are likely millions of high capacity magazines in the state already, and the passage of the original bill has only bolstered that number beyond lawmaker's wildest dreams. what are we doing here? this bill is all optics without any change. We demand that you protect our constitutional rights.
