House Committee On Revenue

Measure, Appointment or Topic:

HB4125

I am absolutely against diverting any of the kicker to education or anything else until Oregon government learns to budget and stop wasting money. This democratic legislature seems to enjoy continuing to take more and more money from taxpayers and push people who are able to pay their bills and survive further and further down so that eventually we will be in the poor group. And this won't be because of our doing. Additionally, your answer is to keep giving more money to the schools but the quality of education keeps decreasing. Find another way.
