Measure, Appointment or Topic:

HB4138

Without proper and clear identification, how can I know who to trust? When some law enforcement refuses to identify themselves it reduces my trust that there is any safety in the system. Please support this transparency of law enforcement. I am more anxious in general under the current situation where unidentified people (with guns) are asking people to go with them, and I am an older white woman. I don't want this for my sons, or daughters, or neighbors. Please help.
