Measure, Appointment or Topic:	HB4145

HB 4145 does little more that compound the injustices foisted on the public in Measure 114.

The only rational action is to amend HB4145 to a single line that reads, "Given that Measure 114 is facially unconstitutional based on numerous supreme Court decisions it is hereby rescinded in all parts".

Any other course only commits the estate of Oregon to years of expense defending the indefensible.

You as legislators have an obligation to the people of Oregon to be mindful stewards of our tax dollars.

This is your chance to do the right thing and do just that, reject this bill and move on to solving real problems, honest citizens exercising their civil rights are not one of those problems."

I do not understand why I have to ask permission to excersie my 2nd ad. rights to be able to purchase a firearm to defend myself.

also do not understand how you can put all these road blocks in place and allow other people to be exempt from these limits just because they are police.

no one is above the law. the law needs to be equal across the board to every person.

also mag limited to 10 rounds is just helping the manufactures sell more mags.

10 rounds will not hurt anyone due to just carrying more mags on their person.
