RE: Testimony in Support of SB 1570-1

To the Senate Health Care Committee:

In these unprecedented times, the people we serve in our communities not only deserve but are entitled to our protection within the hospital. As healthcare providers we have sworn an oath to do no harm and act within the best interest of our patients and their families. Everyone is entitled to medical care regardless of their status, everyone is entitled to feel safe during a time where they need to heal and are already vulnerable from illness.

Now is the time for us to stand up, speak out and defend our communities. No one should fear for their safety or life while seeking medical care, everyone is deserving of confidential care. These are our neighbors, our friends, our family members and they need our voices and actions more than ever.

Thank you for the opportunity to provide comment and I look forward to your support.

Jasmine Jett
