House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I feel passionately about Oregon diverse wildlife and varied habitats. The news I read these days always mentions habitat loss and degradation. We owe it the wildlife and animals that call this beautiful state home.

This legislation would be a monumental win; plus it is a landmark bill that would show other states how to build a bipartisan coalition of statewide legislators, organizations, and citizens to protect shared natural resources.

Cordially,

Amanda Robinson
