Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or HB4029
Topic:

I support passage of HB 4029. I live in the north part of Lake County and, as some of you should be aware, we are beset with numerous "residences" which violate zoning rules, county ordinances, state & county health ordinances and these are often encouraged with the use of unlicensed solar power system installations throughout our rural desert landscape. I am aware of one such installer who at times averages one home solar installation per month, all done without permits, licenses, & undeclared cash payments. Individuals such as this undercut the honest, regulated, quality work performed by the two commonly used licensed electrical contractors who reside & operate out here. Again, I support advancing of this bill.
