Measure, Appointment or Topic:	HB4145

I am an Oregon resident who voted for Measure 114. I wanted it implemented immediately. Every day it is delayed is a day justice is not served. The delay due to the courts has been untenable. Gun violence must be reduced and the steps presented in Measure 114 are research-based ways of doing so and must be implemented immediately now without further delay. HB 4145 will make implementation of the measure more efficient and effective. HB 4145 MUST pass this session! Thank you in advance for your work and for "doing the right thing" for all Oregonians.
