Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Having traveled around the country lately I have seen the boon that tourism brings. I was just in Florida and between the cruise ships and the amusement parks they must get half a billion people a year to that state. Oregon is having a very hard time bringing tourists to our state. The last thing we need is to make it more expensive for them to come here. Look what it has done to Las Vegas. Please find ways to cut unnecessary spending before raising taxes.
