Measure, Appointment or Topic:

HB4145

I, as a life long Oregonian, oppose this bill. This bill does absolutely nothing to keep citizens safer and only adds more hurdles for law abiding citizens to exercise their constitutionally protected right. It essentially creates a de facto firearm registry. It also makes it harder and more expensive for normal everyday people to exercise their 2nd amendment rights. In a time when we are already struggling to keep up with the cost of living in the state. With child care, rent, and everything else being so expensive, the extra cost of all this could be what stops a single mother from being able to protect her family. I will not support any bill that restricts our constitutionally protected rights as Oregonians and you shouldn't either.
