good afternoon

what possible good can come from the absence of small farm stands which are an intimate part of our american heritage? in oregon in particular. is there any ability left in government to use common sense? or, has every elected governor been bought and is now owned by that master. small farms are not a present day threat to we the people it is lawmakers who have lost their way and can no longer honestly legislate. please find it in your heart and soul to say no to this bad bill. hb 4153.

thank you.
