

Submitter:

Genny Bond

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

To whom it may concern: I am asking for your support for HB 4134.

The bill will allow collection of money to help resolve wildlife issues throughout Oregon, including compensation for ranchers/farmers for livestock losses due to wildlife, and including creation of wildlife passage structures which will resolve constant on-going problems of vehicle crashes due to wildlife crossing public highways. The bill will result in a very small additional lodging tax, but a fraction of the taxes already charged to people visiting Oregon---they will continue to come to Oregon in large part because of our wildlife, and that may even increase due to the wildlife protections this bill will make possible!

I appreciate the time and energy all of you are committing to the people of Oregon!
This bill will help the people of Oregon.

Thank you for your time and consideration---
