Craig Zarling

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I'm writing to advocate for HB4134, which would support and protect Oregon's wildlife and natural heritage. The protection of wild places is a priority for me, and the richness of the natural environment in Oregon is an important factor in choosing the place where I live, and it's also a reason many people visit our state. Today I'm just back from fishing near the coast, and can easily imagine the negative impact of losing the natural habitat that remains close to home.
