Measure, Appointment or Topic:

HB4145

This testimony is meant to supersede testimony submitted yesterday by myself. In previous testimony I referenced my opinion towards a previous house bill.

In regard to HB 4145 in the Oregon legislature of 2026 I am in opposition. My opposition is built on the principal that a permit to carry infringes on Americans (residing within Oregon) right to bare arms. Details can be found by reading the constitution and ensuring state law abides by federal laws.

Best,

Josh
