Committee:	House Committee On Judiciary
Measure, Appointment or Topic:	HB4145

I am an Oregon resident concerned about the proliferation of guns and greater risk of gun violence. Per ammo.com, as of 2025, 48% of Oregonians owned guns. I'm a native of eastern Oregon, where my father used his 22 to fend off varmints. In her 80's my mother in Hermiston was robbed and terrorized by armed men. I've known many who have used guns to hunt—something I respect. And I want safety officers to protect us without having to engage in gun battle.

I supported Measure 114 to reduce gun violence, a measure which passed in 2022 but has been hampered in Court. Once the court rules, HB 4145 is a solution to bring enforcement to Measure 114, which the majority of Oregonians supported.

I strongly urge you to make Oregonians safer by supporting HB 4145.

Thank you for using reason and care in representing us!
