Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I support implementation of HB 4145 because the majority of Oregon voters wanted to see common-sense protocols to keep guns out of the hands of those that have posed harm to innocent adults and children and eroded our public safety. Please vote "yes" on this measure because we need to find ways to keep violence and harm from threatening the quality of safety all Oregonians deserve.
