

Submitter:

Cole Graber-Mitchell

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I support HB 4145 because it will make much-needed technical fixes to allow state agencies to easily implement Oregon's on-the-books permit to purchase law. Lawmakers should make sure that state agencies are in the best possible position to implement Measure 114's life-saving provisions if and when it is held to be constitutional. Regardless of how one feels about Measure 114—I strongly support its provisions—the people of Oregon voted for it, and we owe it to them honor their wishes by making these technical fixes.
