HB4145

This bill is a haphazard attempt to circumvent the judicial system that you all say you support. The bill has no instruction on how to implement it, no funding to implement it, and is so vague that County/City government will be scratching their heads trying to figure out how to implement it. This bill makes law abiding, self defense more difficult for those who wish to protect themselves, their families, and their properties from the criminals whom this bill has NO affect on because they do not purchase weapons legally in the first place. I can only imagine that this is a prelude to the socialist/communist members of our Oregon government cow towing to the vegan/vegetarian minority groups trying to pass a law that makes hunting, fishing, trapping, etc illegal, if you have no guns then there is no need for killing what you eat because everyone will be forced by the communist/socialist government ran by minority whiners to eat only veggies. Talk to people from North Korea, their starvation in some areas is so bad that they harvesting and eating grass. Please use some common sense and quit making it easier on the criminals, and trying to turn law abiding citizens of Oregon into criminals which is what this bill is going to do in the long run. Implementation in 2028??? Right there is the proof that you all have no idea how to make this bill happen, reminds me of nancy polosi's "You gotta vote FOR it to see what's in it."
