

Submitter:

Bonnie Andrews

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Chair Nathanson and Members of the House Committee on Revenue,

I am an Oregon native who lives just across the river in Vancouver, WA, and I regularly spend time in Oregon's forests, rivers, high desert, and coastal areas. I strongly support HB 4134 with the -1 amendment.

Oregon already has the science-based strategies needed to protect wildlife and build resilience through the State Wildlife Action Plan. What is missing is a stable funding source to put those plans into action. HB 4134 provides that solution in a fair way that does not increase the cost of living for Oregonians.

This investment will support wildlife recovery, wildfire preparedness, and Oregon's outdoor recreation and tourism economy, benefiting both communities and natural resources. With broad bipartisan and business support, HB 4134 is a smart step toward long-term environmental and economic health.

I urge you to support HB 4134 – 1 this session.

Thank you for your time and consideration.

Sincerely,

Bonnie Andrews
