HB4145

It would be a tragedy to whittle away the life saving impacts of Measure 114 by not implementing the measure in a sustainable way. I support HB 4145

Even though courts keep affirming the constitutionality of Measure 114, the delays have been frustrating, and lives continue to be lost.

Yes, we need adequate mental health services in Oregon, but deaths and injuries will still occur if people who are quickly issued firearms are not found to be eligible to own weapons. or don't responsibly use and manage their firearms. There is lots of data available from other states that have enacted these measures to show they have lower firearm death and injury rates. Please pass HB 4145.
