Measure, Appointment or Topic:

HB4138

I support HB 4138. It is more important than ever that law enforcement be readily identifiable by the general public. In a time when ICE agents are acting illegally and against citizens constitutional rights, it is conceivable that they would charade as law enforcement to misuse power and trust. We need our law enforcement to be identifiable and clearly distinguishable from citizens or other federal agents that could charade in their place and cause harm and terror in doing so.
