Measure, Appointment or Topic:	HB4145

I strongly oppose any and all modifications to the original bill (114) narrowly passed by voters. Including the original bill itself. These bills will do nothing but infringe on gun owners rights.

The fee increases will create hardship for many, especially when the cost to merely survive is falling out of reach. Further I do not think that police should be exempt from following the rules.

114 and all modifications including In 4145 are only designed to hinder our rights set forth in the constitution. By any definition these laws are an infringement.

Your consideration of my statement is appreciated.
