Measure, Appointment or Topic: SB1541

I support SB 1541. Fossil fuel companies release the gases that cause global warming. Global warming causes natural disasters. These environmental disasters must be cleaned up and this costs money. It is only fair that the fossil fuel companies pay for the disasters caused by their emissions. This bill would create a superfund to help pay for the damage done by the climate change the fossil fuel companies caused.

Thank you for your time.
