House Committee On Judiciary

Measure, Appointment or Topic:

HB4138

I strongly support HB 4138. If law enforcement personnel are following the law and treating citizens with dignity, they have nothing to fear by making their identities known to the public. On the other hand, as citizens, we have much to fear from armed, unidentified and unidentifiable agents operating with apparent impunity. We have given up too much to the tyrannical regime that is infiltrating every part of our lives. Make them identify themselves and make them and what they do visible to us all.
