Senate Committee On Education

Measure, Appointment or Topic:

SB1538

I STRONGLY OPPOSE SB 1538.

Again, I see legislators defending "illegal" behavior and now they want to lay responsibility on our education system for protecting illegal behavior. It is time to stop placing a priority over the "legal" citizens of this state.

One wonders "why" the legislators of this state would place such an importance over it's legal citizen and voter? Why are those who come here illegally given so much more than the people who live, work, and are legal in this state?

Common sense tells us this is a power trip and for whatever reason, any of you pushing this horrible legislation placing a priority of those who do not care to abide by the laws of this country over it's citizen must either get paid for these types of legislation or feel there is something for you all to gain from it over the people who vote for you who actually are citizens and haven't broken laws to be here. Who do you represent really?

I'll never understand how it is ok to break a law and the folks breaking that law are placed on pedestals over the citizen abiding by the laws of this land, given money and free hand outs that the citizen is paying for. There is a legal way to become a US citizen and the people who have taken the time to assimilate to our laws to become a legal citizen are also disgusted at this type of legislation. And now you want to place responsibilities on the educators in a system that severely ranks last in education overall of these United States? It's time you stop placing priorities on things that voters in this state do not want and start placing a priority on the US citizen and Oregonian. We deserve better than this.

Our children deserve better education results as well.

Vote NO to SB 1538. This is NOT in the best interest of our children or our citizens.
