

Submitter:

Carolyn Thurman

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Outdoor recreation is a \$16 billion industry in Oregon. Investing in our wild lands and wildlife will help keep this industry growing and thriving. This lodging tax increase will still keep it to one of the lowest in the nation. More importantly, nature and human health are linked. Clean air, clean water, wild pollinators to help us with food production, wildlife like bats and owls to control rodents and insects. Please pass HB 4134
