Matthew Thayer

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Requiring a permit, let alone a permit fee to purchase and own a weapon in this state is ridiculous. You are going to cause those less fortunate than others to have to give up their fundamental right to protect themselves because of this fee and permitting process and then alienate them even further. Then you're creating a a whole separate class of individuals by having your exemptions allowing some but not all to possess certain magazines. No one should have more privileges than another based off of their job title when it is our constitutional right to purchase and use weapons as we see fit within the boundaries of the current laws that do not restrict our rights as US citizens. HB 4145 and Measure 114 are garbage policies that infringe on our constitutional rights.
