

Submitter: Kala Franklin
On Behalf Of:
Committee: Senate Committee On Early Childhood and Behavioral Health
Measure, Appointment or SB1573
Topic:

Hello and Good Morning,

My name is Kala Marie Franklin- I live in Portland, Oregon and regularly spend my time volunteering supporting outreach efforts for homeless individuals along with understanding housing/homeless policies in my spare time.

I am very supportive of ensuring safe access to schools given the impact that canning, tent encampments and syringe drug use had upon my neighborhood.

Reading Senate Bill 1573 I think that there should be consideration to expand time, place and manner to include where daycares or schools may frequent such as parks, play centers, and institutions that host learning focused events cater (field trips).

I hope that those sitting on this committee will pass these time, place and manner requirements for medical harm reduction services for substance use.

Kindly,
Kala
