

Submitter:	Jim Bronson
On Behalf Of:	Third Act Oregon
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1541

As an 82 year old man I have many living descendants who depend on our environment for safety, for food, for water, and much more... in fact, we all depend directly or indirectly on our environment for every resource we need. This bill will go a long way to repairing damage already done by decades of pollution caused by large companies like Shell and Chevron. They can pay for cleaning up their messes and so they should. This bill gives the state of Oregon the means to use the finances of large polluters to clean up past messes and to prepare for future messes caused by the biggest polluters. Please move this bill through the legislature rapidly. It is urgently needed. Thanks you.
