Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I'm a small business owner that operates in the hospitality industry and I strongly oppose the increase in Transient Lodging Tax. As small business owner we are doing every task that you can think of in running a business: HR, Marketing, Operations, Maintenance and etc. in order to make a profit. Having an increase in lodging taxes only decreases the ever thin margins we currently operate in. This measure definitely hurts small businesses and should not go into effect.
Thank you.
