

Submitter:

Eric Pimm

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Imposing higher lodging taxes on an already suffering industry to support wildlife preservation which does not directly promote tourism in our state is non-sensical and would be an even greater deterrent to the already high cost of vacationing in our state. This will also hurt the thousands of short-term vacation rental owners like myself as well. STOP THE TAXES!!!
