Ralph Goldstein

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I have worked in schools and supervised and participated in live shooter drills. The kids know it is no joke. My heart sinks when their eyes get big and they are forced to imagine the horror, and hope against hope that the adults can keep them safe. We need to use every tool: this bill & measure 114 to lower the possibility that a misguided person can get their hands on a gun and destroy lives. We need more than hope and prayers. We need your legislative action.
