Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

This is one of the most racist bills I've ever seen come before the legislature. It effects the poorest people living in high crime areas by forcing them to put out their hard earned money for expensive training and redundant background checks in addition to the cost of a firearm. This bill will surely result in the deaths of poorer citizens in high crime areas that might have been able to be prevented if they could have purchased a firearm they could barely afford without the extra burdens this bill would cause them. Their deaths will be on your hands. I'm calling it the Jim Crow bill for Oregon.
