Derrick Lenzer

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I have watched the progress of Measure 114 and the costs to buy, own, or possess a firearm have risen and risen. Any modifications or price increases between a law-abiding citizen and a firearm create an overreach on people's right to buy, own, or possess a firearm. The amount of money used to fight every law-abiding citizen's right to buy, own, and possess a firearm is impressive yet we still have bills like this coming through. Let's stop, and use our money and resources to stop crime and enforce laws, not create more laws that target law-abiding citizens.
