Measure, Appointment or Topic:

HB4145

As a working class blue collar tradesman electrician I strongly oppose HB 4145. I'm a multi-generational Oregonian a law-abiding citizen and this bill does nothing to protect the general safety of anybody yet harms those of us who follow the laws and the rules and get the appropriate permits and background checks. It creates a unnecessary registry and continues to push the dates further and further back for permits approved and also increases the reasons of denial.
