Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4145

I strongly oppose this bill. It causes undue financial burden to exercise a constitutional right. It is descriminating against less fortunate people so they can not defend their family, or enjoy the same rights as privileged citezens. If this passes it is no differant than charging a huge fee to practice religion, vote in election, equality for minorities, ect.. If we pay a fee it is against the constitution. The constitution is to limit the government, not the people.
