Measure, Appointment or Topic:	HB4125

I am in support of HB 4125 The Revenue Forecast modernization Act.

We must allow investment in Oregon from some of the revenue now automatically sent to the kicker.

We need better schools, housing and medical care, especially as the federal government abandons aid to our state.

I am an older adult concerned about Oregon's future and I urge our legislators to vote for reasonable and much needed reform to the automatic kicker.
