House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I am a teacher & a mother of school & college age kids. I want the gun safety measures that Oregonians voted for implemented. I don't want to go to work in fear of violence to myself, my students or my own children. We can reduce the violence done with guns in our community- why is there a such a delay- lives are being lost & put in jeopardy everyday that these fair & simple measures sit in a file on a desk! My family owns guns & will not be inhibited by the precautions of 114. I volunteered to collect signatures for M114 & gun owners signed it & told me that these are common sense & responsible actions to counter the mass shootings that have become common place in the USA.

Please change this trajectory of abject violence with guns! Oregon can lead a better way- we need a new reputation!
