

Submitter: Beverly Carson

On Behalf Of:

Committee: Senate Committee On Early Childhood and
Behavioral Health

Measure, Appointment or Topic: SB1573

I support Bill SB 1573.

Distributions of needles is unsafe anywhere near schools and their pathways that children use.

Please protect our neighbourhood and our children so they do not have to be exposed to all that this brings.

Unsafe people congregate where needles are distributed.

Until our city actually has a plan to help people that are addicted this is not safe for anyone.

Thank you
